

Sharing stories

With VoiceThread (www.voicethread.com)

Getting started

- 1) Visit www.voicethread.com and register for an account or sign in.
- 2) Select **'Create'** from the menu at the top of the screen.
- 3) **Upload pictures** that you would like to include in your slide show (or you can import pictures from a Flickr account). Wait for your photos to import or upload.
- 4) Select **'Comment'** to bring up a slide show of your pictures ready for you to add your comments. Select **'record'** to **add an audio comment** to this picture. Click stop recording when you are done. You can add text comments as well using the **'type'** button.
- 5) Click the picture of a person in the bottom-left hand corner to change who is speaking. You can add new people to your group by selecting **'Create new identity'**. You can upload a photo of each group member.
- 6) When everyone has added their comments to this picture, you can move on to the next in your slide show.

Doing more with VoiceThread

- You can publish your VoiceThread on a blog or MySpace page.
- You can share your VoiceThread with others.
- You can optionally allow others to record their comments on your VoiceThread (moderated by you first).
